CC 0 Public Domain Dedication

Etherpad: bit.ly/oa-week

CC 0 Public Domain Dedication

What is science

- A collective endeavor
- Systematic knowledge generation
- Problem solving
- Creative process
- The best we have

CC 0 Public Domain Dedication

What threatens science

- Individualism
- Unsystematic knowledge generation
- Problem creation
- Absolute process
- Social dilemma

CC 0 Public Domain Dedication

Current state of affairs

- Individualism is incentivized
- Documenting knowledge generation not standard
- Buying into human biases
- Naive realism

CC 0 Public Domain Dedication

Why not easy

Science	Open
Requires education	Requires education
Statistics	Technology

CC 0 Public Domain Dedication

Why open is not easy

- Requires education
- Cutting edge technologies
- First generation where it’s viable
- Active discovery necessary
- Open is a philosophy of science
- Social dilemma

CC 0 Public Domain Dedication

let's try open

- If you have a device, go to
  - Bit.ly/oa-week
  - Etherpad = collective note taking
  - I sometimes do this with 40 people!
    - (Pst: great for meetings so not ONE person has to take ALL the notes)

CC 0 Public Domain Dedication

Open requires some learning
