For some types of use, AAAS only grants licenses that cover both "print and electronic" formats of your work. For example, if you have selected "print" format rights and do not see "figure" as a portion option, try selecting "print and electronic" as the format. In other cases, only "print" or only "electronic" rights are available for a given type of use, requestor type, or portion.

NWO scherpt per 1 december 2015 haar subsidievoorwaarden op het gebied van Open Access aan. Dit betekent dat alle publicaties die voortkomen uit een 'call for proposals' die NWO na deze datum openstelt op het moment van publicatie direct openbaar toegankelijk moeten zijn.

The Commission is assessing options and will consider legislative proposals on other EU exceptions by spring 2016, in order to:

- allow public interest research organisations to carry out **text and data mining** of content they have lawful access to, with full legal certainty, for scientific research purposes;
